YERIFIED.

The short-cut route to reform in the ma' ter of the bobtail-car nuisance is for the special session of the Legislature to pass a bill compelling all street railroad companies to put conductors on all their cars.

The scope of the work of the special session at Albany seems to be widening. A clumsy political game for vantage ground is being played by both sides. Why not relieve this soft of work by doing one thing that everybody, Democrat and Republican, would approve of?

Gov. HILL would score a very timely and popular hit by bringing the matter before the special session.

The railroad companies with prosecutions for constructive manslaughter in prospect would consult their own interests by not opposing such a measure. The juggernaut must go.

A DISCOVERY.

For thirty years the people of this city have submitted to the closing of Stuyvesant Park st night, in the belief that the deed of gift sanctioned or required it.

The stoops, the streets or the roof have been the only resort of the people in that neighborhood in search of fresh air in the sultry summer evenings.

It remained for THE EVENING WORLD to discover and proclaim the fact that the park was given to the city without any such re-

It is time to open the gates and give to the people their own.

FISHING POLITICIANS.

The Republican politicians at Albany are

very readyl to "fish for the labor vote" by forbidding contract or machinery work in the prisons, after building it up and maintaining it for years as the policy of the State. None of the industries established in the prisons interferes seriously with the monopolies which these politicians are engaged in defending. But when it comes to making the con-

spiracy laws bear equally upon Trusts and other capitalistic combinations, and the organizations of labor, the Republican Caucus King says No! In fishing for votes, the millionaires who

furnish the campaign funds must not be disturbed.

THE "SMILE DRILL"

The latest invention of the hazing naval cadets at Annapolis could be made of great use in the average household.

Cadet FRED R. PAYNE explained to the investigating commission now in session that "smile drill" means that the man who drills holds up one finger, and the victim must smile, and as the number of fingers held up increases the smile must broaden. When the hand closes the smiling mus

This perfunctory smiling is no doubt any thing but funny to the under-class cadets. But parental authority and conjugal love might utilize it to great advantage, When the husband comes to the breakfast table "grumpy," let the wife held up one finger as a sign to him to smile. When (if ever) the wife gets cross, let the husband put up one, two, three fingers. And when the children are "out of sorts," the sign for a smile would change their expression and perhaps their mood.

There are great possibilities in the "smile

As usual, THE EVENING WORLD " beat them all " yesterday in the matter of early and late news of the events of the day.

No conductor, no pay, is the campaign motto in the crusade against the bobtail cars that " must go."

lut the Granter bold, Years Ago, That It Was to Be Used Forever for a Public Park-Do the Gates Shut at Night Impair the City's Title to the Grounds ?-Any-

When Peter G. Stuyvesant and his wife Helen conveyed Stuyvesant Park to the Mayor, Aldermen and Commonalty of the city of New York, Sept. 20, 1836, one condition imposed was that the plot of ground on either side of Second avenue so conveyed were forever to be used for the purposes of a public park or else revert to the heirs of the grantor.

Other conditions were that a railing "similar to that to be erected about Union Place" (Union Square) be placed about the new park, which was to be improved as Washington Park had been.

The old iron fence about Union Square has long since been removed. That about Stuyvesant Park still stands, but there is no reason under heaven, excepting the desire of the wealthy people whose residences abut on the square to make the park a private lawn, why the gates in this fence should be locked

why the gates in this fence should be locked from sunset to dawn.

Indeed, there is a question in the mind of some if the locking of these gates is not a sufficient ground for the heirs of Peter Stuyvesant to maintain an action to secure their property in reversion in the park ground.

Peter Stuyvesant's language in conveying the property was explicit and unmistakable.

The property conveyed was to be used for. The property conveyed was to be used for-ever for the purposes of a public park, and not half the time as the front door yard of a

"There is not much business going on now because of those — reporters. The police, too, are egainst us. I am not trying to do any business myself."

Dick is a middle aged man, and has agreeable manners. He sells eigars in the front part of his store, but, like all the rest of the policy dealers, his principal business is transacted in a back room screened from public gage. public gaze.

"I was fishing away down in New Jersey a few days ago," continued Butler, "I was trying my luck in a fresh-water pend, when public gaze.

Not far away, at 2021/4 William street, next to the bridge, is Thomas J. Taylor's eigar store and policy hell. If one inquires for a game of policy anywhere in that vicinity he will be directed at once to Taylor's place, and be assured that Taylor is good for all lucky winners. His backer is well known, and makes a second story room on Green trying my luck in a fresh-water pend, when all at once I got a big bite.

"The line almost ran away with my pole, but I pulled away and landed the funniest looking fish I had ever seen. It was over two feet long and had a snout on it like an alligator. I took it to a farm-house near by and the Jerseyman told ne it was a pike."

"A pike," broke in Alderman Patrick Divver, " is a fish of the genus erox Jucius."

"Come and have a drink," exclaimed Alderman Joseph Murray.

He spoke like one in a dream and broke another silent spell.

Besides these two is one in a cigar store at 60 Delancey street, one kept by an alleged taxidermist at 225 Broome street, and in Alexander's eigar store at 142 Allen street.

The Evenino World's list of policy shops is now close onto the hundred point and is swelling every day. About thirty of them have been expesed, five men are indicted and will be tried next week, and warrants are out for several more against whom evidence to convict has been collected.

A reporter called at 358 West Forty-first street last evening. This is a policy shop, and was exposed in the columns of The Evenino World a short time ago. The man Johnson, whom P. C. Eckhardt, who leases the building, said was proprietor, is not seen around there any more. He has either opened a shop somewhere else or has left his policy business in charge of the old man to be seen there now.

THE WEE LITTLE INVALIDS. GLIMPSES OF THE GOOD WORK OF "THE

EVENING WORLD" PHYSICIAN.

How the Condition of Some of the Diminu tive Sufferers Has Improved - A Nest ings-The Newport of the Poor-LongSummer Struggle with Poverty and Disease

When THE EVENING WORLD'S physician and his companion revisited the sick children on Goerck street yesterday, aside from the improvement noticed, they found a large and enthusiastic number of women extolling the paper for its act of charity; and, surely, if heartfelt thanks were silver dollars, THE EVENING WORLD could well afford to employ in its mission all the physicians in New York.

Beside the wee convalescents were a large number of sick babies, pale, dull-eyed and listless babies, who would excite exclamations of surprise and pity from many moth. ers whose own little ones are frisking about them in perfect health while they read these lines. Some of the little ones were suffering severely and in urgent need of medical attendance, others beyond the help of earthly physicians. In all cases treated the parents were too poor to provide either doctor or suitable food.

In one instance the father was earning but \$4 per week. The sick baby required the constant care of the mother, preventing her from contributing anything towards the support of the family. The rent for the two small rooms is \$8 per month, leaving but \$8 per month to clothe and feed a family of

CLEANLINESS AMIDST POVERTY. But although the baby was fretful and peevish, the mother worn out with nights of watching and caring for her little sick one, the floor of her tenement was beautifully the floor of her tenement was the white and clean and an air of neatness pervaded the apartment that was pleasant to behold in the midst of so much neglect of the laws of cleanliness.

Where it was necessary the grateful

Where it was necessary the grateful mothers were promised another visit. With one exception all the doctor's directions had been carried out carefully and faithfully.

The great need among the little invalids now is proper clothing. The tiny calico slip which in so many cases constitutes baby's entire wardrobe is not sufficient. They need soft flannel underclothes next to the tender lungs and abdomen. There is many a castoff weollen shirt and other garments in families in even modest circumstances that would prolong the life and administer to the comfort of the poor little sick ones in the fenements if they were donated. It is a common mistake to suppose that young children do not need flannel underclothing in summer. The Evening World's physician is the expert authority for this statement.

THE NEWPORT OF THE POOR. Passing along the river front, the Newport of the poor, the physician, in his way from tenement to tenement, encountered dozens of sick babies in the srms of either mothers or elder sisters. In some cases it was a matter of doubt which baby was trying to carry the other so well was the nurse. But the ter of doubt which baby was trying to carry the other, so small was the nurse. But the breezes were as fresh and cool and baby enjoyed its outing just as well as it was possible for it to do in the arms of its diminutive nurse. Of course her arms didn't reach more than half way round the buby, but she was careful, so that atoned for all lacks in stature. Perhaps when she was tired baby carried her. It would have seemed almost as appropriate. "Isn't he heavy, little girl?" elicitated the information that he was for all day, but I'm used to it now."

"Evenn' World, lat'st 'dition, one cent," yelled a dirty-faced lad in the doctor's ears as he stepped out of the last house. Before he bad time to reply another little chap shouted: "Shu up, Jimmy, don't cherknow he's The Wolld's doctor!" And the "Oh!" that Jimmy uttered spoke volumes.

"Oh!" that Jimmy uttered spoke volumes, but whether of approval or otherwise did not appear.
